

2018 SUSTAINABILITY TRENDS REPORT – TABLE OF CONTENTS

SECTION 1: ENERGY

RENEWABLE ENERGY SUPPLY IS BECOMING INCREASINGLY RELIABLE, SCALABLE AND COMPETITIVE (SLIDES 9-15)

- > Installed capacity (MW), global (2000-2017)
- > Share of global electricity generation by fuel (2007-2017)
- > Levelised cost of electricity (2010, 2017)
- > Global new investment in clean energy by sector (2004-2017)
- > Global power sector investment (2007-2017)
- > Global energy-related CO2 emissions (2000-2016)

EMERGING MARKETS, WHERE FUTURE ENERGY NEEDS ARE GREATEST, ARE LEADING THE SHIFT TO RENEWABLES (SLIDES 16-19)

- > Global new investment in renewable energy: developed and developing countries (2004-2017)
- > Global new investment in off-grid solar, by financing instrument (2012-2017)
- > Correlation between hydrocarbons and poor governance

ENERGY STORAGE CAPACITY IS IMPROVING, WHICH BOLSTERS THE CASE FOR RENEWABLES (SLIDES 20-24)

- > Battery cost and performance (2008-2017)
- > Global project installation over time (1999-2018)
- > Global electro-chemical storage capacity (1996-2016)
- > Estimate of global electricity generation capacity, relative to total storage capacity, 2017-18

INNOVATIONS TO REDUCE ENERGY DEMAND ARE PROLIFERATING (SLIDES 25-31)

- > Insulated homes in Great Britain (2013-17); Share of US households using smart meters (2013-2017)
- > Commercial buildings in the US which have earned EPA's Energy Star (2000-2017)
- > A-type LED price, \$/klm (2012-2017); US A-type lighting installed stock, by mode (2010-2017)
- > Productivity, by sector (1947-2017); Emissions from construction industry as a share of total global emissions (1990s-2010s)
- > Change in primary energy intensity (2013-2016)
- > CO2 Intensity of GDP, with actual and hypothetical annual reduction (1970-2100s)

IMPROVED REGULATORY SYSTEMS ARE DRIVING A MORE SUSTAINABLE ENERGY MIX (SLIDES 32-40)

- > Emissions under EU's cap and trade carbon-pricing scheme (2005-2017); Carbon intensity per unit of GDP (1990-2014)
- > Share of global greenhouse emissions covered by carbon-pricing initiatives, 2004-20, percentage and number of initiatives (2004-2020); Number of global companies factoring an internal carbon price into their business plans (2014-2017)
- > Cumulative number of climate-change related laws, global (1980-2017)
- > S&P 500 companies' sustainability reporting (2011-2017)
- > Growth of US certified B-corps (initial year certified)
- > Assets under sustainability-investment management (1995-2017)
- > Global market for green bonds (2007-2017)
- > Global temperature variation over past 20,000 years
- > CO2 emissions from fossil fuels & industry

SECTION 2: URBAN MOBILITY

ELECTRIFICATION OF VEHICLES IS PROCEEDING RAPIDLY (SLIDES 45-54)

- > Car sales per month, America (2013-18)
- > Electric car stock, global (2005-2017)
- > Electric-bus sales and share of total bus sales, China (2011-2017)
- > Global EV lithium-ion battery manufacturing capacity (2012-2017)
- > Alternative-fuel vehicles as a share of the total fleet, Europe (2005-2017)
- > Lithium-ion storage technology price developments
- > Share of new passenger car registrations made up by SUVs, Europe (1990-2017)
- > Regulation may further encourage consumers to move towards less-polluting vehicles
- > Global EV charging outlets (2010-2017)

URBAN TRANSPORT IS UNDERGOING RADICAL CHANGE (SLIDES 55-60)

- > Number of trips made on public transport, USA (1990-2017)
- > Weekly unique dispatched vehicles in NYC (2015-2017)
- > Weekly total dispatched trips in NYC (2015-2017)
- > Hours of congestion, 2013 versus 2017
- > Corporate and venture M&A activity in software designed to improve efficiency of transport systems (2013-18)
- > North America carsharing member growth (2000-2017)

AS AUTONOMOUS VEHICLES BECOME MORE POPULAR, ENVIRONMENTAL AND SOCIAL BENEFITS WILL FOLLOW (SLIDES 61-66)

- > The number of AV miles travelled without having to be manually overridden (Jan2017-Sept2017)
- > Net present value to society of US autonomous taxis
- > Autonomous driving, private venture activity from both corporate and venture investors, and deal count (2014-2018)
- > Number of patent publications/families, global (1967-2018)
- > Advanced driving assisted systems market size (2007-2018)

URBAN ENVIRONMENTS HAVE BECOME MORE PLEASANT AND SAFER PLACES TO BE (SLIDES 67-72)

- > Amount of grassland and forest, USA, 1945-2017
- > Global living planet index (1970-2012)
- > Annual tree cover loss, global (2001-2017)
- > PM2.5 concentration, American regions (2000-2017)

- > Disability-adjusted life years (DALYs) loss from particulate matter (1990-2017)

ALTERNATIVE MODES OF TRANSPORT ARE BECOMING INCREASINGLY MAINSTREAM (SLIDES 73-79)

- > Traffic composition of City of London (1999-2017)
- > Worldwide bike-sharing schemes launched per year (1995-2017)
- > Corporate and venture capital deal activity in bike-sharing (2014-2018)
- > Population growth by type of city, USA (2010-2017)
- > Share of people saying that they feel safe when walking around at night, OECD (2005-2017)

SECTION 3: RESPONSIBLE CONSUMER

SUSTAINABILITY IS INCREASINGLY BECOMING A MAINSTREAM CONSUMER OPTION (SLIDES 83-89)

- > Share of global consumers highly attracted to sustainable products
- > Walmart's carbon intensity (2006-17)
- > Leaders in sustainability, % of analysts polled
- > Clothing sales and GDP growth (2005-2018)
- > Share of EU individuals selling goods or services online to other consumers (2007-2017); Number of people interacting through used-goods marketplaces, global, '000 (2009-2018)
- > Turnover from e-sales, EU28 (2008 to 2016); CO2 emissions by screening method

THE BY-PRODUCTS OF ECONOMIC ACTIVITY ARE BEING TREATED IN A MORE SUSTAINABLE WAY (SLIDES 90-95)

- > Municipal waste generated per capita, median OECD country (1975-2017)
- > What happens to municipal waste in the OECD, share by destination (1995-2017)
- > Trade in recyclable raw materials (2004-2017)
- > The added value from reusing materials
- > Corporate and venture capital deals in recycling and waste industries, global (2014-2018)

THE GLOBAL PLASTICS SYSTEM IS A CAUSE FOR SERIOUS CONCERN (SLIDES 96-102)

- > Global plastics production (1950-2017)
- > NGO campaigns on the issue of plastic pollution
- > Share of plastic waste that is recycled, UK (2012-2017)
- > Gross recycling rate of bottles in the US (2000-2017)
- > Number of countries that have introduced plastic-ban bags and/or charges (2010 and before-2018-19)
- > Concern about plastics pollution in the UK
- > Global production capacities of bioplastics (2013-2017)

FOOD SYSTEMS ARE SLOWLY BECOMING MORE SUSTAINABLE (SLIDES 103-110)

- > Growth rate of global per-capita meat consumption (2001-2017)
- > Popularity of global Google searches for "Vegan" and "Vegetarian" (2004-2018)
- > Annual sales of vegetarian meat alternatives, UK (1999-2017)
- > Annual sales of dairy milk, US (2012-2017); Annual sales of non-dairy milk, US (2012-2017)
- > Size of the vitamin, mineral and supplement market worldwide (2007-2017)
- > Global obesity rate (1980-2017)
- > Share of ag dealers offering technologies, US (2004-2017)

BUSINESSES ARE ENABLING CONSUMERS TO SWITCH TO MORE SUSTAINABLE CHOICES BY BEING OPEN AND ACCOUNTABLE (SLIDES 111-117)

- > Average global corruption-perceptions index, global (2013-2017)
- > The average Doing Business score across the world (2010-2018)
- > “RegTech” – or “compliance technology” – annual deal count and value, global (2013-2017 YTD)
- > Top 4 firms’ share of total industry revenue, % United States, 893 industries, grouped by sector (2007-2012)
- > Corporate profits & stock market indices (1971-2017)

SECTION 4: HEALTH & WELLBEING

THERE IS MIXED PROGRESS IN IMPROVING PHYSICAL AND MENTAL HEALTH (SLIDES 122-129)

- > Mortality rate, crude (2000-2017)
- > Death rates for non-communicable diseases (2001-2017)
- > Total number of cancer deaths averted from 1991 to 2017 in men and from 1992 to 2017 in women, US
- > Cardiovascular disease, death rate (1990-2017)
- > Childhood deaths from five most lethal infectious diseases worldwide (2001-2017)
- > Share of population with any mental health or substance use disorder, global (2000-2017)
- > How many more years rich men can expect to live than poor men, UK (1987-2017)

PRESSURE ON HEALTH-CARE SPENDING IS ONLY GOING TO RISE (SLIDES 130-134)

- > Health-care spending as a percentage of GDP (2000-2017)
- > Spending on health care as a percentage of GDP (2014-2040)
- > CAGR of real-terms per capita growth in public-health spending, pre-crisis versus post-crisis
- > Medical errors as a cause of death in the US; Health-care spending waste in the US

IN AN ERA OF TIGHT BUDGETS, THERE ARE NONETHELESS INNOVATIONS IN THE PUBLIC-HEALTH FIELD (SLIDES 135-140)

- > Global and regional immunisation coverage of diphtheria, pertussis and tetanus (1980-2017)
- > Share of total health-care expenditure put towards prevention, OECD countries (2000-2017)
- > Number of jurisdictions worldwide with a sugar tax (pre-2016 to 2018); Impact of sugar taxes
- > Private sector R&D on overall health, global health, and neglected diseases, 2016
- > Percentages of health-care delivery organisations that are using video for telehealth or planning to use soon, US

AIDED BY TECHNOLOGY, CONSUMERS ARE TAKING GREATER CARE OF THEIR HEALTH THEMSELVES (SLIDES 141-147)

- > Share of adults engaged in leisure-time physical activity, US (1997-2017)
- > Number of gyms, US (2008-2017)
- > Number of downloads of health apps, global (2013-2017)
- > Top three therapy fields with market potential for digital health apps, survey of developers (2010-2017)
- > Mental health & wellness tech annual global deal history, value and count, global (2013-2017)
- > Britain, social-media users, 14- to 24-year-olds, reported impact on well-being, 2017

RAPID TECHNOLOGY ADVANCEMENTS MEAN THAT COMPLETELY NEW INTERVENTIONS CAN BE OFFERED (SLIDES 148-155)

- > Cost of sequencing a single human genome (2001-2017)
- > Global interest in the microbiome (2004-2018)
- > Clinical trials examining the microbiome, global (2012-2017)
- > Total number of people tested by consumer genetics companies (2013-2018)
- > Genomics quarterly global financing history (2013-2017)
- > Number of patents filed associated with medicine, global (1980-2017)

SECTION 5: FUTURE OF WORK

NEW BUSINESS MODELS ARE ADDRESSING THE PUTS AND TAKES OF A RAPIDLY CHANGING LABOUR MARKET (SLIDES 159-165)

- > Estimated annual shipments of industrial robots by region (2007-2017)
- > Inquiries to Gartner about AI (2014-2017)
- > Drone revenues, worldwide (2017-2018)
- > Increase in exposure to robots by American sub-region, in the 1990s and 2000s
- > Impact of robots on share of work done by different skill groups
- > Civilian labour-force participation rate (1948-2018)
- > Online Labour Index, June 2016=100, global

WORKERS ARE BEING UPSKILLED TO COPE WITH NEW DEMANDS FROM TECHNOLOGY (SLIDES 166-169)

- > The average PISA score in the OECD appears to be in decline (2000-2017)
- > The share of enterprises offering training to their staff appears to be rising (2005-2017)
- > Global private investments made in learning-technology companies (1997-2017)
- > Annual growth rate in labour productivity (2016-2018)
- > The relationship between labour productivity and working hours

WORKER FLEXIBILITY IS INCREASINGLY SUPPLEMENTED BY STRUCTURED, EFFECTIVE COLLABORATION (SLIDES 170-177)

- > Share of workers who telecommute, US (1995-2017)
- > Index of autonomy at work (2015-2017)
- > How various dimensions of workplace quality affect life-satisfaction
- > Relationship between happiness and self-employment, Europe
- > Number of coworking spaces, global (2011-2017)
- > Number of members, global (2011-2017)

EMPLOYERS ARE TAKING EMPLOYEES' WELLBEING MORE SERIOUSLY (SLIDES 178-182)

- > Illness caused or made worse by work, UK (2001-2017)
- > Market size of corporate-wellness services, US (2007-2017)
- > Global deal count and venture-capital investment in HR tech since 2012 (2012-2017)
- > US union membership rate (1983-2017)

OVERALL INEQUALITY REMAINS TOO HIGH (SLIDES 183-189)

- > Wealth inequality, USA, 1960s-present
- > Acorn vs Stash client accounts
- > Probability of reaching top income quintile at age 26 by year of birth and parental income quintile, United States (1971-1986)
- > Gender pay gap (2008-2017)
- > France has joined Norway with more than 40% of boards comprised of women (2003-2017)
- > Race / ethnic pay as a percentage of whites' pay (2008-2018)
